

## Helena's Story

Helena's story began when she returned to Birmingham after completing a degree in English Literature from the University of Leeds. During her time in further education, Helena made sure to fully embrace all aspects of University life and was involved in numerous committee's, clubs and charities. While she loved her time at Leeds, Helena always knew that Birmingham was where she wanted to live and start her career.

With no fixed idea of which industry she wished to go into, Helena decided to register with SimkissGuy Recruitment after hearing the positive experience her sister had with the company. Entering The Colmore Building only a week after graduating, Helena was met by Emily, who immediately thought she would be a great fit for the team. Helena jumped at the chance to gain that all important office experience and to be a part of a thriving SME.

Starting out as an Intern, Helena was quickly immersed within the fast-paced world of recruitment. Entrusted with an array of responsibilities, Helena assisted wherever needed in the office, handling administrative duties, offering support with multiple SimkissGuy events and maintaining relationships with candidates. Helena soaked up as much experience as possible during her time with the team and soon became aware of just how unique SimkissGuy really were.

Helena began to realise that with her passion for truly personal service, recruitment was an industry she was interested in pursuing. Having made a big impact on the team throughout her internship, SimkissGuy were quick to offer her a position as Relationship Coordinator.

Helena officially joined the team on 4<sup>th</sup> January 2017.
